He Presented a Statement in Place of the Chairman of a Committee and Mr. Chappell Took Offense-The Lie Was Passed Between the Two and a Combat Prevented.

The Northeast Citizens' Association met last night but did not transact any basiness. The night was hot, but before the meeting was over the feelings of some of the members were many degrees more torrid than the air outside

It had been given out that a magic lantern exhibition would be a feature of the evening. This exhibition was intended to show the injustice which has been done the northeast section in apportioning the appropriations made to extend, open, grade, pave and regulate the streets.
This innern was on hand and the maps and data prepared for the purpose also, but

they were never shown, because the or gamzation got off on another tack. The subject of suffrage was debated to death, and at times a free fight was expected, but finally the whole affair was cleared up by referring the street extension and paving matter to a committee. Then

CHAPPELL TOOK OFFENSE. Mr Loring Chappell, one of the committeemen, took offense at this fancied introon. He regarded the calling of Mr. mittee, as a reflection upon the gentlemen who were associated with Mr Johnston on the committee. Mr. Chappell made a speech of about half an hour's length, it which he explained minutely how he had tion that out of the deliberatuous and actions of the street committee and he said be wanted the association to know all

Mr. Frarrell here moved that the rules the antomation be suspended and that the rest of the meeting he devoted to con-sideration of the extension and paving of the streets in the northeast. SPIRIT OF ACRIMONY. Mr. Prozed spoke at some length on this abject, reviewing the street improvement and extension in the northeast for the past twenty years. He accused the Commission ers of bringing rotten asphalt and dumping it on streets in the northeast when they

Men on the New Post-office Building Will Get Whatever Protection They Regard as Necessary.

The stone workers and brick masons are protected by scaffolds. about ten feet wide so that an accident to these men could only be had by the grossest carelessness.

Supt. Kinsey has shown himself to be very much in earnest for the protection of the nien under his supervision. To a great many of the employes his request for their protection made at the proper time, last November, was unknown until they read it in The Times. The comment on the superintendent's action in that regard has the gang to which the late George Beach belonged, said yesterday that it was likely that the question of additional protection would take definite shape to-day, and possibly would have been attended to yesterday but for the absence of some of the workmen. There are about two my five or thirty men to whom this security is lit-erally a matter of vital interest.

Mr Keys thinks that the Supervising Architect has done all that could be desired by his offer to consider a request Times It is now the men's turn to act, he said, and that will most likely be to-day. Mr. Kinsey thinks that this is a case where judgment is preferable to pride and has favored all possible protection.

Supervising Architect Aiken said that it was to the interest of the government to get the best service from the men, and that this could be obtained where the conditions were most favorable to the

DETECTIVE LACEY'S DOUBT

Told Baker Frisbie That He Didn't Believe the Latter's Story.

Mr. Frisble Had Reported That \$200 Had Been Stolen from the Place Where He Hid It.

It has been some time since Anneastin was treated to a sensation; but vesterday there were two occurences on the criminal alendar that created any amount of surprise and gossip.

The first was the announcement that Mr. Abraham B. Friship had been robbed of \$200 in a most mysterious fashion. The second occurred when Detective Lucy, who had been sent to work up the case, told Mr. Frisbie that he did not believe the story of the robbery. . Hot words passed between the two and Mr. Frame barely escaped arrest as the consequence.

When he went to the place yesterday foreoon his first act was to inspect the hiding place. When he turned up the peck measure the money was gone. Mr. Frishle was very much plarmed, and at once made search for other evidence of the robbery. Capt. Doyle Succeeds in Getting Himself Very Much Distiked-Has a Wordy War with Davis.

Baltimore, Aug. 12.-The New York baseball team, with Captain Manager Doyle in charge, left the Carrollion Hotel to-night for Philadelphia, where the club will play their next serges. In leaving the Carrollton Hotel, Doyle and his cohorts bade it a final adjeu.

This was because of an unseemly row which occurred in a barroom last night Doyle and his men had been out enjoying themselves throughout the day, and were not in a mood to be infled with when they ordered drinks at the Carrollton bar upon their return from Pay Side resorts late last night. In a centroversy which followed the ordering of drinks, Phener Rusie gave evidence of his discontent with Baltimoreans, in general and the bar-tender in particular,

by saying unpleasant things.
"Silent Mise" Ternan and "Dad" Clarke encouraged the fat Indiana twirler until a cessation of hestilities was called by Manager Shannon, who pulled Captain Doyle out of bed with the request that he take care of his players and forever therefter keep them out of the Carrollton

STABBED BY HER HUSBAND.

Jealousy Caused William Gordon to

Nearly Kill His Wife. Bessie Gordon, colored, was stabbed in the left side of the neck by her husband, William Gordon, about 9:30 o'clock last night at the home of her mother, No. 949 Golden street southwest. The blade of the knife parrowly missed the jugular vein, and made a wound about one and one-half inches in width and quite deep. The injured woman was conveyed to the Emergency Hospital in the Fourth precinct patrol wagon by Policeman Emil Rinck. The stab wound is a dangerous one, but the physicians believe the woman

will pull through. The man escaped.

William Gordon and his wife Bessie have been living at No. 228 Twellib street southeast. She is twenty-four years of age and is considered good looking among the young colored men of her acquaintance. Of late her husband has been jealous of her and suspected that she was going to her mother's house in South Washington to meet a colored clam dealer,

who was said to be in love with ber.

Last night Gordon was informed that his spouse had gone to Golden street to see the clam vender. He armed himself with a big-bladed pocketknife and repaired to her mother's residence. Instead of going to the front door he entered the back yard by climbing the fence and called his wife to the rear door.

"Don't go out there," said Mrs. Gordon's mother. "He will harm you."
"I will go," replied the wife. She then stepped down into the yard. As she did so the husband placed his left arm around her neck, drew her to him, and with-

out a word plunged the knife into her

neck, the blade just grazing the jugular vein. The man then fled. A general alarm to look out for him was telephoned by police headquarters. He is well known in East Washington, where he has lived a long time

Hallie Gay took Steve L'Hommedieu's good filly, Dutch Girl, into camp in great shape, but no one doubted for a moment that Butch Girl was not pulled. Delchanty had the mount on her and rode a very suspicious race.
